CHOOSING YOUR PROGRAM

This catalog is designed to help you select the best program for your participants. When reading through the following activities, please be sure to consider:

1. **The ages of your participants meet the listed minimums for each activity.** Groups with varying ages may reserve multiple programs while onsite to meet the needs of all participants.
2. **The size of your group is within the listed capacity for the program.** If your group exceeds the maximum, please call ahead to ensure accommodation. Smaller groups are always welcome, but will be charged up to the listed minimum if below this size.
3. **The number of adults you plan to bring.** Our youth programs require a minimum of 2 adults to stay for the duration of the program. We recommend bringing 1 adult for every 12-15 youth. For large groups (over 100 youth) we may ask if any adults are interested in helping us at the rock climbing wall.
4. **Your group is able to attend the full length of your chosen program.** Please select a program that fits the time constraints of your group. If your timing changes, please notify the Base Camp to confirm activities will fit.

Archery – In any weather, Base Camp’s 15-yard, indoor archery range is ready to help first timers or seasoned veterans hone their skills in this activity of physical control and mental concentration. Our staff provide all of the equipment, instruction, and coaching to safely enjoy this unique and challenging program.

Rock Climbing – A signature experience at Base Camp is climbing our 30-foot, indoor rock wall. The 16 belayed routes accurately replicate the natural features found in the St. Croix River bluffs near Taylors Falls. All safety equipment and facilitation is provided by our trained staff. Outdoor climbing is offered April to November, weather permitting. Team climbing allows all members of a group to participate simultaneously – while pair of climbers ascend the wall together, their group members will manage their safety as the belay team from the ground. An hour-long belay training session may be added to any climbing program – offering another element of trust and communication development. This training adds an hour to the program length and if we finish early, climbers get even more time to climb!
